		7000D/8000D Series	7000P/8000P Series
Photographic Papers	791 Satin Microporous Photobase High opaque, satin, instant-dry, 8 mil media with a special back coat to assure a flat sheet during printing, finishing and mounting. The image side has two inkjet coatings to control dot gain and ease of laminating.	● TA, LT, HA, PS	● TA, LT, HA, PS
	790 Glossy Microporous Photobase High opaque, glossy, instant-dry, 8 mil media with a special back coat to assure a flat sheet during printing, finishing and mounting. The image side has two inkjet coatings to control dot gain and ease of laminating.	● TA, LT, HA, PS	● TA, LT, HA, PS
	785 Universal Satin 8 mil, highly opaque, photographic media. A quick-dry, high quality, front and back resin-coated media, designed to handle heavy ink loads. Excellent color saturation for thermal and piezo printers using dye or pigment inks without bleeding or rub off.	★ TA, LT, HA, PS	★ TA, LT, HA, PS
	784 Universal Gloss 8 mil, highly opaque, photographic media. A quick-dry, high quality, front and back resin-coated media, designed to handle heavy ink loads. Excellent color saturation for thermal and piezo printers using dye or pigment inks without bleeding or rub off.	★ TA, LT, HA, PS	★ TA, LT, HA, PS
	759 Blue Velvet Premium, quick-dry, 8 mil, photo-base media with a special back coat to assure a flat sheet during printing and finishing. Excellent color saturation for both dye and pigment inks without bleed or rub off. Excellent alternative for back-lit film.	★ LT, PS	★ LT, PS
	769 Bob Picasso Acid-free, moults-made, fine art paper that is slightly structured and coated on one side and compatible with dye and pigment inks. The combination of a “true watercolor” base paper and superior inkjet coating produces brilliant original art, limited editions, and other output that demand quality and consistency.	★ TA, LT, HA, PS, LQ	★ TA, LT, HA, PS, LQ
